NO. 83.

GAINS TWO INCHES

WATER IN RESERVOIR IS NEAR NORMAL AGAIN.

ICE SUPPLY IS BETTER

Anyone Can Get Ice by Coming After It—Harrison Bros. Receive Nine Tons.

At last there is ice. Not very much, but enough for temporary relief. There is not enough to start the wagons on their routes over town again, but any one who wants ice may get it by going after it. The water supply is getting near normal again, two more inches being gained in the reservoir Saturday and Sunday. Manager Denny says the supply looks safe to last a reasonable length of time until a rain comes to put us past all danger.

The Everhart plant manufactured some ice Sunday and is running today. Mr. Everhart and Harrison Bros. received a shipment of nine tons of ice from St. Joseph this afternoon. They will not haul to the houses, but Mr. Everhart says he will sell ice to any one who will come after it for \$1 per hundred pounds. The men working on his well succeeded in getting hold of and taking out the bit which fell to the bottom of it last week. Mr. Everhart stated this morning that he would have the well sunk 500 feet before he stopped in the effort to strike water. F. G. Shoemaker could not get the ice he was after Saturday, but he is trying to get shipments from other places.

This supply of ice which the dealers have is augmented by the small shipments which some of the business firms are continuing to receive. F. P. Reuillard received another two tons today, which made it possible for him to continue making ice cream.

An excellent supply of water was had nearly all day Saturday and Sunday, and as long as the present conditions hold the water will be turned on from 6 o'clock in the morning until 8:30 at night. This service has been made possible by the work accomplished Saturday by the combined forces of the city's men and those sent here by the Burlington railroad. Their work so increased the flow of water that the Burlington's men did not think it necessary to stay any longer and left this morning. The city's men continued to work all day Sunday.

Manager Denny said this morning that he thought the water supply was safe. An excellent flow, which looks as if it will last, is now coming down the river. However, if it should suddenly give out Mr. Denny had an engine and pump ready to go farther up the river and pump water from the pools.

Fishing on Nodaway River.

Judge Floyd Westfall and Mrs. Westfall and Mr. and Mrs. Fay Campbell of Barnard spent several days last week camping and fishing on the Nodaway river near Quitman. Judge Westfall said Monday that he thought that about 1,200 pounds of fish were caught in that time. The biggest catch was one of 27 pounds.

Saw the Keokuk Dam Opening.

William and Kenneth Van Cleve returned Saturday from a month's visit with relatives at Moberly and LaGrange, Mo. The boys witnessed the opening of the Keokuk dam and made the trip from St. Louis and return on a boat.

Peter Birkenholz and son, Robert, of Monroe, Ia., and Guy Culver of Greenfield, Ia., who have been visiting Mr. and Mrs. Lufe Stamper for a few days, left Saturday for their homes. Mr. and Mrs. Charles Birkenholz of Monroe, Ia., are guests at the Stamper home. Mrs. Stamper, who has been seriously ill for some time, is slowly improving.

Q. D. Carmichael of near Burlington Junction writes as follows: "Come on with some more Democrat-Forum as I find we can't get along without it."

DEATH AT JUNCTION.

Mrs. Ray Mathews Passed Away at Burlington Junction Saturday Evening.

Mrs. Ray Mathews died at her home in Burlington Junction at 6 o'clock Saturday evening. She had been an invalid for several years, and her death was caused by cancer. The funeral was held at 1:30 o'clock this afternoon, Rev. J. W. Love conducting the services. Mrs. Mathews is survived by her husband and two children. The family had lived in Burlington Junction only a few months, coming there from Des Moines, Ia.

DROPS SEVERAL DEGREES.

Thermometer is Lowest in Two Weeks—Cooler Weather Predicted.

Saturday was the twenty-ninth day this summer that the temperature has been 100 or more, and also was the eighth consecutive day when the mercury was above 100. This equalled the twenty-year record for hot days in a row, the year 1901 having eight straight days with 100-degree weather. Saturday's temperature was 101.

On Sunday the mercury went up to 97.

And today it was only 94 at 1:30 o'clock by the government thermometer, being the lowest since two weeks ago. Today was the first indication of prospect of continued cool weather. Cooler weather during this week is promised to the central part of the country by the weather bureau, but no prospect is held out for relief in the east and south, and even higher temperatures are indicated for the northwest.

The eastward movement of a northwestern high pressure area, the weekly bulletin says tonight, "will be attended by lower temperature early in the week over the central plains states, the Missouri and upper Mississippi valleys, and the upper lake region, and probably by some moderation in the Ohio valley and the lower lake region. Light frosts are probable Monday morning in the lowlands of northwestern Minnesota. In the east and south there will be temperature changes during the week, but not decided, while in the northwest it will be warmer during the middle of the week, temperatures will be rising generally over the central and west portions of the country, followed by a fall over the northwest toward the end of the week."

The marked disturbance now over southern Alaska will extend eastward and southeastward, causing rains early in the week over the Pacific northwest, and about the middle of the week over the northwestern states east of the Rocky mountains. No other precipitation of consequence is indicated during the week except in the south, where thunder showers are likely to continue the greater portion of the week.

"There are no present indications of a Tripoli disturbance."

Returned to Maryville.

George S. Heck, who has been visiting in Waynesboro, Pa., for the past year, returned to Maryville Sunday. Mr. Heck expects to stay here.

A SERIOUS CHARGE

WM. GARNER WAS ARRESTED FOR WHITE SLAVERY.

HE WAS LIVING HERE

Mrs. Gertrude Holbrook, With Whom He Was Living, to Accompany Him to Emporia.

Thomas O'Connor, sheriff of Lyons Kan., arrived in Maryville Monday noon from Emporia and took into custody William Garner, who was arrested here Saturday on a charge of white slavery preferred at Emporia. They, together with Mrs. Gertrude Holbrook and two children, with whom Garner was living, left this afternoon for Emporia.

Garner came here three weeks ago with the woman and children, and they have been living in a tent at the south end of Lovers' Lane. He has been working on the farm of C. D. Bellows.

Saturday afternoon Chief Moberly received a telephone message from Sheriff O'Connor asking him to arrest Garner on the previously stated charge. The man was immediately put under arrest and word sent to the Kansas authorities.

Mrs. Holbrook is a divorced woman, but it is understood that the charges are preferred by her former husband. Garner has a wife living in Kansas, where he worked as a farm hand.

When asked today what he had to say to the charge against him, Garner replied:

"I am not guilty. I rented rooms and kept the woman for two months before I came here, and every one knows she accompanied me willingly."

DROUGHT LOSS IN MISSOURI.

Less Than Half a Corn Crop—Water Scarce on Nearly All Farms.

The corn prospect in Missouri declined 25 per cent in August and the present condition is only 41.8 per cent of normal, according to a report issued Saturday by T. C. Wilson, secretary of the state board of agriculture.

The state last year raised 243 million bushels of corn on an August condition of \$6.8, more than twice as high as the present condition. Conditions by sections are: Northeast, 43; northwest, 45; central, 41; southwest, 34; southeast, 46. Even in the northwest section, where heat and drought did comparatively little damage earlier in the season, the crop suffered greatly during August. There is much good in river bottoms and on low lands. On the other hand, there are upland fields that will hardly make good fodder.

The crop is very poor in the counties south of the Missouri river and along the west line. Benton and the counties to the south have also been hard hit. North of the Missouri river the greatest lack of rain has been in Audrain and other northeast counties. It is estimated that 20 per cent of the corn crop of the state has been cut and that 40 per cent more will go into the shock. More silos than ever before will be filled.

Dry weather has greatly interfered with preparations for sowing wheat. Correspondents report only 30 per cent of the ground plowed, compared with 41 per cent a year ago.

Water for live stock is now the most serious matter with the average farmer. Eighty per cent of the correspondents report a water shortage. Ponds have dried up and many springs and wells that have never failed are dry or nearly so.

Pastures are brown and bare and the condition for the state is 25. It is estimated that 30 per cent of the farmers are now feeding new corn. However, owing to the general shortage of live stock there may be no extraordinary demand for feed.

Won Many Prizes.

In a letter to her parents, Mr. and Mrs. W. F. Smith, Mrs. Blake Alexander tells of the McDonough county fair, in session at her home town, Bushnell, Ill., the past week. Mrs. Alexander won fifteen firsts and seven seconds on preserves, jellies, canned fruits, fancy work and hand painted china. She carried off seven points on hand painted china, five firsts and two seconds. This fair was a decided success, notwithstanding weather conditions.

Left for California.

Miss Jessie Mutz left Saturday evening for Hanford, Cal., where she will teach domestic science in the high school. She stopped enroute at Denver, Col., for a two days' visit with Mrs. Mary Fletcher.

APPOINTED AGAIN

REV. RANDOLPH SENT BACK TO MARYVILLE CHURCH.

ONE CHANGE IN COUNTY

Rev. Hoover Transferred to Agency—Revs. DeWitt, Patton and Holliday Were Returned.

Rev. J. D. Randolph has been sent back to Maryville for the coming year as pastor of the Buchanan Street Methodist church by the Southern Methodist conference in session at St. Charles. The conference appointments were made at noon today.

Rev. Randolph is attending the conference and is expected home Tuesday.

REV. J. D. RANDOLPH.

He has been pastor of the church here for one year, and during that time the church has made good progress. He is a popular pastor in the church as well as out of the church.

Rev. S. E. Hoover, who has been in charge of the Ravenwood and Guilford Southern Methodist churches, was transferred to Agency, and Rev. D. S. Rainsford selected to take Rev. Hoover's place.

Rev. M. DeWitt was returned as pastor of the Barnard charge.

Rev. J. F. Patton was also sent back as pastor of the Skidmore charge.

Rev. Holliday was returned to the Elmo charge, where he has been the past year.

DEATH AT PICKERING.

Mrs. John Alexander Died There Sunday Morning—Funeral Today and Burial at Maryville.

Mrs. John Alexander died at 5 o'clock Sunday morning at her home in Pickering, after a summer's illness. She suffered from a complication of diseases. The funeral service was held at the home at 1:30 o'clock this afternoon by Rev. H. J. Dueker, and the body was brought to Maryville for burial. Mrs. Alexander is survived by her husband and sons, James of Lincoln, Neb.; Thomas, Charles and William of Pickering.

TO LEAVE FOR ENCAMPMENT.

John M. Evans and J. D. Dickerson Are Planning to Go to Chattanooga, Tenn.

John M. Evans and J. D. Dickerson of Maryville are planning to leave Saturday for the forty-seventh national encampment of the Grand Army of the Republic, to be held in Chattanooga, Tenn., September 15 to 20. Mr. Evans will represent the local lodge of the G. A. R.

Coulter Will Probated.

The will of M. M. Coulter, who died in Arkoe a few months ago, was probated Monday in probate court. The will leaves the estate to the following, share and share alike: James F. Coulter, Jennie Corrough, Ivan Coulter, Joseph D. Coulter and El Dora Virginia Coulter. Frederick Coulter was named as executor. The will was written August 12, 1911, at Bassett, Neb., and was witnessed by B. E. Chapman and M. J. Lloyd.

Was His First Sunday.

Rev. Louis M. Hale, the new pastor of the First Baptist church of this city, occupied the pulpit of that church Sunday, being his first one. Good crowds were in attendance both morning and evening and excellent sermons were given.

Operated on at Hospital.

Mr. and Mrs. J. I. Salsman of Chase county, Neb., came to Maryville last week, and Mrs. Salsman was operated on Monday at St. Francis hospital by Dr. Will Wallis, Jr., and Dr. C. T. Bell.

BAND TO PLAY AT RACES.

Maryville Band to Go to Parnell—Will Give Concert Next Sunday Afternoon Uptown.

The Maryville band will play at the races to be held at Parnell on Friday and Saturday. On Sunday afternoon the concert will be given in the band stand uptown and will consist of a sacred concert. Then the band will give their weekly concert on Thursday evening as usual.

DEATH OF WILBUR CURNUTT.

The 10-Year-Old Son of Mr. and Mrs. John Z. Curnutt Passed Away Monday Noon.

Wilbur, the 10-year-old son of Mr. and Mrs. John Z. Curnutt, died at 12:30 o'clock Monday afternoon at the family residence, 403 West Second street, after an illness extending over the greater part of the summer of heart trouble. He leaves to mourn his loss seven brothers and sisters, besides his parents.

The funeral arrangements have not yet been completed.

TO GO TO CONFERENCE.

Rev. C. R. Green of the Harmony Church to Leave Tuesday—To Be Returned to Harmony.

Rev. C. R. Green, pastor of the Harmony church, east of Maryville, will leave Tuesday morning for conference at Nettleton, Mo. Rev. Green is president of the conference which comprises thirty-five ministers and seventy-five churches. The conference is of the Methodist Protestant church.

Rev. Green has been pastor of the Harmony church for four years and will be returned to the Harmony church. The congregation of the church has requested that he be sent back and have also raised his salary.

TO KEEP TAB ON INSURANCE.

Federation for Protection of Workers and Public to Be Formed.

A state-wide meeting of citizens directly or indirectly engaged or interested in the insurance business will be held in St. Louis late this month to organize the insurance federation of Missouri. The state will be divided into districts, with a committee in a central town of each to receive and act on complaints to ferret out unfair practices among insurance men. A special committee will be named to keep a close eye on bills proposed in the state legislature and endeavor to avert their death in committees.

Among the purposes of the federation will be:

To establish and maintain high, clean standards of professional conduct among insurance workers; to eliminate and correct all evils or abuses which may creep into the insurance business; to educate and inform the public as to the particular benefit of each form of insurance; to promote and foster a spirit of fraternalism and mutual helpfulness among the insurance workers of the state and to co-operate with the public in the enactment and enforcement of just and beneficial insurance laws.

Visiting With His Sisters.

J. Wesley Jones of Loveland, Col., arrived Monday from Burlington Junction and will spend the week with his sisters, Mrs. M. M. Rittenour and Mrs. J. F. Montgomery, and families. Mr. Jones accompanied the body of his mother, Mrs. Rachel Jones, to Burlington Junction, where the burial took place Saturday.

LARGE AUTO TOUR

WILL PASS THROUGH MARYVILLE SEPTEMBER 18.

GIVE THEM A WELCOME

Every Motor Car Dealer and 200 Business Men of Kansas City Will Be Represented.

The trade tour of Kansas City, under the auspices of the Motor Car Dealers' association of that city, will come to Maryville on Thursday, September 18. According to the schedule they are to arrive here at 12:30 and leave at 2:30 p. m. Dinner will be taken here. The party will leave Kansas City on September 15 and they will visit a number of towns in Missouri.

This is the first opportunity that the people in Northwest Missouri have had to see a live automobile show parading through its country roads and city streets. There will be represented in dollars more than \$150,000 worth of motor cars, averaging in price from \$500 to \$5,000. These cars will be filled with Kansas City business men who are coming into this territory to get acquainted with the citizens of the different towns through which the tour will pass.

This tour is under the auspices of the Kansas City Motor Car Dealers' association, and practically every dealer in Kansas City who sells gasoline driven cars has entered his car in this tour. With from 150 to 200 enthusiasts coming into our midst, it behooves each citizen to see that the visitors get a hearty welcome. This tour from Kansas City is an annual event, and probably it will be a good many years before this same route is covered again by the tourists, so let everyone turn out to see them.

Col. Frank M. Buffham, the state highway engineer, will make the entire trip, and Governor Major has promised to make at least two or three days of the tour. Committees from the commercial clubs and other business men's associations will accompany the motorists, and it is going to be a great get together and get acquainted occasion, and we hope that everybody who is interested in seeing this section of the country boosted will get out and do his share in this celebration.

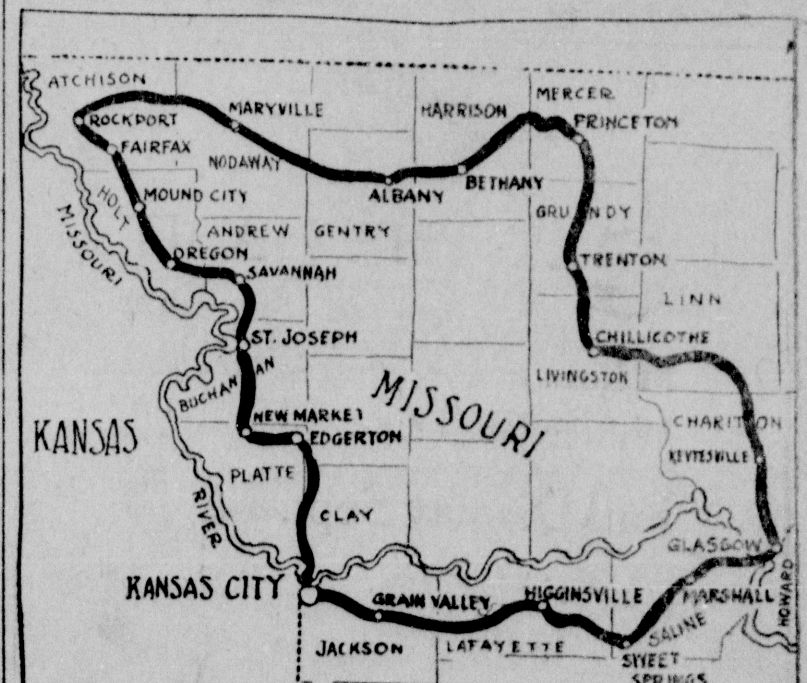

The following is the time of arrival and departure on the day that the tourists are in our city:

7:00 a. m.—Leave Bethany.
7:30 a. m.—Arrive New Hampton.
7:30 a. m.—Leave New Hampton.
8:15 a. m.—Arrive Albany.
9:15 a. m.—Leave Albany.
9:55 a. m.—Arrive Stanberry.
10:45 a. m.—Leave Stanberry.
11:30 a. m.—Arrive Ravenna.
11:50 a. m.—Leave Ravenna.
12:30 a. m.—Arrive Maryville.
2:30 p. m.—Leave Maryville.
3:10 p. m.—Arrive Burlington Junction.
3:30 p. m.—Leave Burlington Junction.
5:15 p. m.—Arrive Tarkio. Night's stop.

THE WEATHER

Unsettled but generally fair tonight and Tuesday; lower temperature tonight; moderate winds.

JEFFERSON CITY LETTER.

(From Democratic Press Bureau.)

The state capitol commission board saved \$20,000 in the purchase of additional grounds for the new capitol. Buying for \$171,000 what the forty-sixth general assembly secured an option on for \$192,000. In letting the contract for the foundation of the new capitol for \$91,000 and the power house and tunnel for \$42,495, the board showed the estimate for another \$20,000 saving. It's a way boards have under Democratic administrations.

Harmony and success should be and are the watchwords of all true Democrats. Stand together, boys, shoulder to shoulder for the faith of the fathers.

When you speak of the Major administration you instinctively think of better school laws, better road laws and better laws for regulating public utilities. The Major administration stands for the best there is in state government. And that's the mission of the Democratic party—to give the people the best government possible.

Now that the insurance war is done for, what was it ever begun for? The only thing it demonstrated was that Governor Major has a backbone like a circus pole and cannot be bamboozled into convening the legislature at the command of powerful corporations.

If President Wilson can safely guide the ship of state out of the troubled Mexican waters, as he did out of the billowy Japan sea, he will prove himself one of the biggest men of the century. Peace with honor is the highest mark of statesmanship. Any fool can plunge a nation into war, but it takes a wise man to preserve peace with honor.

The national and state Democratic administrations are proving equal to every emergency and are making good all along the line. The people are at the bat and special privileges are being sent from the field in disgrace.

The Value of the Small Farm.

The editor of Farm and Fireside writes as follows in the current issue of that publication:

"The tendency of this generation is toward the corporate ownership of farm lands—the intense industrial spirit is back of that tendency. But with the advent of the large farm the farm home disappears, farm life is snuffed out, and we have in its place a big 'system' which for the time being may be able to show satisfactory financial results, but which will ultimately mean both financial dissatisfaction and social unrest. The small farm well filled leads to a contented community; the large farm, even if well cared for, cannot receive the care it should; it results in a complete loss of community life and pride."

The Stoddard Library, I find, is what the author claims, "A thousand hours of entertainment with the world's greatest writers"—giving the reader a taste of those fruits of the pen that have fed the mental world for generations, and furnishing a guide to still wider reading.—Rev. E. G. Strout, Nashua, New Hampshire.

The August Drouth.

The past month of August left a record for heat and lack of rain that has not been equalled in a long number of years. The government weather bureau has been in existence for twenty-five years and it has no record of a previous August during which the maximum heat remained so high, above 90 on the average for the thirty-one days. In some sections of the country no rain whatever fell during August, and in fact, over most of the west, southwest and the middle states very little rain has fallen since June and not much during that month.

Scientists say that cold and heat come and go in cycles, but they have never been able to foretell a cycle as they do the coming and going of comets, eclipses of the sun and moon and other heavenly phenomena. They can foretell the coming of an eclipse of the sun or moon, and usually foretell the coming of a comet for many years in advance to the exact time. There is no guess work about this branch of science. It is mathematics well applied. But the coming and going of heat and cold constitute an entirely new field.

The public generally like to see the weather prophets skinned alive. This is but natural. The prophets don't know much about the weather a few days in advance. They can tell that a storm is coming when the storm has formed and the telegraph tells them in which direction it is coming or going. It does not require much scientific knowledge to do all of this. "When it is black overhead, thundering and lightning all around and pouring down in the middle," anybody knows it is not only going to rain, but is in fact raining.

Science has accomplished much, but it has never been able to do much with the weather. Some years there is little or no snow and some years an over-abundance. Then there are pleasant summers and hot summers like the late unlamented one when vegetation sizzles up and sweating, fuming humanity, like the beasts of the field, must suffer. And yet in the course of a year, in this climate, there is an abundance of cold and heat, of rain and drought, to make an ideal four seasons if the heat, the cold, the rain and the drought could be properly distributed. Here is where science amounts to nothing, and yet in years to come it may be discovered that the whole thing is simplicity itself. People would ridicule such an idea now, just as they ridiculed Robert Fulton and Prof. Samuel F. B. Morse, and just as they would have ridiculed Thomas A. Edison had he not sprung the phonograph as a surprise, and not until after he had perfected his invention. Ten years ago few would have believed that the automobile would be in as general use as it is today, and yet it stands to reason that the horse and the mule must go, and other and cheaper power will take their places.

The time may come when a community can get rain when it needs the same, and when an approaching blizzard can be switched with a warm current. Today we know very little about the overhead currents of air. What we do know now, but did not know a few years ago until Marconi told us, is that there are overhead currents of electricity which can be made serviceable in transporting messages across the ocean. These currents have been utilized, and yet wireless messages are but in their infancy.—Jefferson City Democrat-Tribune.

Parnell to Have Races.

Parnell is to have races on Friday and Saturday, September 12 and 13, at the race track in that city. There are to be seven running races a day and there will be two running races for farmers' horses. B. A. Jones is president of the association, F. A. Brier, secretary, and James M. Stevens, manager. Many horses from a distance will enter as will the Jones race horses.

Miss Lois Harrison of Bethany arrived Saturday evening to begin her senior year at the Maryville Conservatory of Music.

News of Society and Womens' Clubs

M. M. M. Club Meeting.

The M. M. M. club will meet Wednesday afternoon at the home of Mrs. C. J. Eckert. There will be a discussion on labor saving devices for the kitchen and laundry.

H. J. Becker to Be Married.

H. J. Becker is to be married early in October to Miss Carrie Wigginton of Macedonia, Ia. This fact has been known to Mr. Becker's intimate friends for some time, but was not publicly announced until today. Miss Wigginton is known to a number of people here, having visited here last July.

Return From Honeymoon.

Prof. and Mrs. E. A. Horton arrived Sunday morning from a honeymoon trip to Menominee, Wis., where they had been since their marriage, July 24. They will remain in Maryville until the latter part of the week when, accompanied by Mrs. Hutton's mother, Mrs. J. D. Felter, they will leave for their future home in Pine Bluffs, Arkansas.

Thomas-Gallagher Wedding.

The marriage of Miss Anna Thomas, daughter of Mr. and Mrs. R. E. Thomas, and Mr. Charles Joseph Gallagher occurred Saturday evening at 6:30 o'clock, at the residence of Rev. Fr. Niemann, who officiated. The bridal couple were attended by Miss Mary Gallagher and Mr. Andy Thompson. Mr. and Mrs. Gallagher left soon after the ceremony for a honeymoon trip to Kansas City and points in Kansas and Oklahoma. They will be at home after October first in Maryville.

AUTOMOBILES TO BE A FEATURE.

Many Expected at the Missouri State Fair September 27 to October 3.

It is said that there are 10,000 more automobiles registered in Missouri this year than last. Many of these machines will doubtless be used by their owners in journeying to and from the Missouri state fair at Sedalia, September 27 to October 3.

Then on Monday, when the big auto parade takes place, hundreds of these buzz and bizz buggies and millionaire 'mobiles' will crowd the great mile track, while city folks and farmers, real, retired and rubber tired, prove how rapid has been the transformation from limousine to limousine. This auto parade will not only be spectacular, but it will also afford every interested person a fine opportunity to study car styles and construction and to talk with the man who knows.

The fine roads leading into Sedalia will be a joy to every man who goes to the state fair by auto. They are such as to insure pleasant travel. Rock roads do away with dust and mud. Pettis county, home of the Missouri state fair—always the first week in October—has elegant roads. Her roads are not "paved with good intentions." In all history there is to be found an account of but one road so paved—and it doesn't lead to the Missouri state fair, where every Missourian who can, "auto" go.

BARNARD NEWS ITEMS.

Clifford, the son of R. L. Key, who lives five miles west of Barnard, was painfully injured late this afternoon, when his hand was caught in a corn cutter and badly lacerated.

R. W. Bridges left this morning for points in Maryland on a two weeks' business trip.

The Barnard school opened this morning.

The Medicinal Qualities of Weeds.

The following is taken from the current issue of Farm and Fireside: "Analysis of our edible weeds shows that they possess powerful medicinal qualities. The dandelion, for example, is replete with tonic salts and is aperient, besides being a natural liver medicine; the milkweed is a perfect tonic for the kidneys and a general cleanser of the system; the common yarrow is a good spring tonic for children; while red clover is one of the richest of all nitrogenous plants, and nitrogen is one of the most strengthening elements."

Holding Court at Albany.

Judge W. C. Ellison went to Albany Monday, where he will hold the regular term of circuit court for Gentry county.

To Meet Tomorrow Night.

The Eastern Star lodge will meet in regular session tomorrow night. A full attendance is desired.

Mr. and Mrs. Edwin Moran and children of near Topeka, Kan., are visiting in the city with Mrs. Moran's parents, Mr. and Mrs. John Hahoney, on East First street.

SAVINGS DEPARTMENT

The officers of the Nodaway Valley Bank wish to announce the establishment of a Savings Department in connection with this institution.

This department will take care of your savings, paying interest semi-annually, and render every assistance in cultivating the habit of saving money.

No one need be ashamed to save money. No one need be ashamed to start with as little as a dollar. The habit of saving money, if persisted in, is bound to make for financial independence and to make a good citizen of the "man with the habit" as well.

You may start an account in our Savings Department with a dollar and make deposits from time to time. No red tape. No formality. Simplest thing in the world and think what it means.

The Savings Department of the Nodaway Valley Bank opened for business on

FRIDAY, AUGUST 22, 1913

Hours 9 a. m. to 3 p. m.

Don't overlook this invitation to start a Savings Account. Drop in next time you are passing and get started. We have a book for you.

James B. Robinson, President. F. P. Robinson, Vice-Pres.

Drought and Beauty.

The finest band that ever played in all this world of wonder. Now could not charm like music made by thunder, thunder, thunder.

If angel choirs were less aloof they'd give us all a pain, compared with drumming on the roof by rain, rain, rain.

The grandest sunset ever seen, of beauty rare as flood, could not now bring such rapture keen as mud, mud, mud.

What most we wish most charms the view, all beauty else seems sham; drought brings up skies of lovely blue—

But dern, dern, dern! —Lee Shippey in Kansas City Star.

Back "Pape's Diapepsin" Digests 3,000 Grains Food, Ending All Stomach Misery in Five Minutes.

Time it! Pape's Diapepsin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapepsin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.—Advertisement

Everett Florea, of near Gaynor City, was operated on for appendicitis at St. Joseph Thursday, and who was reported in a serious condition, is now improving. His parents returned home after the operation.

**CONGRESS' WORK
IS OUTLINED**

Anti-Trust, Railroad and Many Bills to Follow Tariff.

AMBITIOUS LAWMAKING PLAN.

Tariff Bill Will Be Out of Senate and in Conference Committee Before End of the Week—Currency Measure in House.

Washington, Sept. 8.—The program of anti-trust, railroad and currency legislation that faces congress for the ensuing twelve months has become fairly well outlined in the last week.

President Wilson and the Democratic leaders in the two houses of congress apparently have agreed upon an ambitious plan of legislative work, which will bring all of the most important reforms contemplated by the Wilson administration within the period between now and the end of the next regular sessions of congress.

The tariff bill will be out of the senate and in the hands of a conference committee of the house and senate before the end of this week. Currency legislation promises to dominate congressional activity within a few days.

Senate leaders are announcing that anti-trust legislation and further important amendments to the railroad laws are to among the first and most important subjects taken up at the regular session of congress next December. The influence of Republicans as well as Democrats, who long have been active in the fight for more adequate regulation of the trusts will be felt in the making of the reforms.

The currency hearings begun early last week before the senate committee on banking and currency have developed radical expressions of opinion from many members of the senate committee, which indicate that long debate and discussions within the committee will be necessary before any general agreement can be reached as to the merits of the administration bill. That measure is to come formally before the house today, and it is believed it will be passed practically without change in that body.

Senator Weeks (Rep.) will attempt this week to force the committee to act on his resolution putting off action on the currency bill until Dec. 2. Administration forces are lining up to meet this issue, however, and Democratic leaders in the senate have made it plain that President Wilson does not favor such a course.

The final fights in the senate over the free wool and free sugar duties will occur tomorrow, when the bill goes to its final passage; but the Democratic forces are believed to be in tact, and no modifications in the measure are expected.

TREVINO AS MINISTER OF WAR

Not to Take Reins as Provisional President of Mexico.

Washington, Sept. 8.—While no announcements were made at any of the government's departments of any change in the diplomatic side of the Mexican controversy, two phases of the situation attracted much attention in official circles.

One was the published disclaimer by Nelson O'Shaughnessy, American charge d'affaires at Mexico City, that any positive assurances had been given him of the intention of Victoriano Huerta not to be a candidate in the approaching elections. The other was the receipt of private telegrams from sources close to the administration in Mexico City that General Geronimo Trevino would be made minister of war soon, to succeed General Blanquet. It had been supposed here that Trevino was ordered back to Mexico City by Huerta to be given the reins of the government as provisional president while Huerta entered the presidential campaign.

Mr. O'Shaughnessy's statement was not surprising here, as it had been pointed out from time to time by Washington officials that they had relied only on the repeated emphasis by Federico Gamboa, Mexican minister of foreign affairs, of the statement that Huerta was ineligible by the constitution to succeed himself.

Jerome Promises to Appear for Trial.

Coaticook, Que., Sept. 8.—Unless a hitch occurs, William Travers Jerome, especially retained by New York state to secure the return of Harry K. Thaw to Matteawan, will appear before District Magistrate Mulvena here this afternoon to answer to a charge of gambling. His case had been set for hearing on Thursday, but both sides agreed to advancing it, and Jerome announced over the long distance telephone from Montreal that he would be here with out fail.

Judge Hits Boy Chauffeurs.

St. Louis, Sept. 8.—Judge Wurdeman of the St. Louis county circuit court instructed the sheriff to prevent the driving of automobiles on the county roads by boys under eighteen years old. Judge Wurdeman, as judge of the juvenile court, said all youthful drivers arrested would be put under parole not to run an automobile again until they are eighteen.

Oklahoma Gets Some Moisture.

Oklahoma City, Sept. 8.—Two-tenths of an inch of rain fell in Oklahoma City and vicinity, ending a drought of sixty days.

**POLICE BAR PARADE
OF ATHLETES IN ROME**

Eight Thousand in Assemblage Received by Pope.

Rome, Sept. 8.—The streets of Rome were guarded by police, carabinieri and troops from the Church of St. John Lateran, where the Catholic athletes heard mass, to St. Peters, to which edifice they marched to be received by the pope.

A great parade that had been planned was prohibited by the police on account of threatened reprisals by the anti-clericals. Notwithstanding the strictest measures to insure order, a few scuffles occurred amid cries from the Catholics of "Long live the pope," to which the anti-clericals responded by shouting, "Long live free thinking."

The athletes, pilgrims and others in the assembly numbered 8,000.

NO ROOM FOR POOR PATIENTS

Cook County Hospital Full of the Relatives of Public Officials.

Chicago, Sept. 8.—The Cook county hospital, with a capacity of 1,900, is kept so full of county and city officials, their wives and their friends, that there is no room left for the indigent patients for whom it was intended, according to charges made by County Agent Meyer, in charge of the hospital.

The charge was made after County Commissioner Frank Ragen had attacked Walter Wieskowski, an investigator kept at the hospital to keep persons of means from gaining admission to the institution, and depriving poor persons from needed attention.

"Admission to the hospital formerly had been by card of a county commissioner," said Meyer, "and Ragen attacked the investigator when Wieskowski refused to admit a well-to-do patient with Ragen's card."

Cooler for a Time, Then Hot.

Washington, Sept. 8.—Cooler weather the coming week is promised to the central part of the country by the weather bureau, but even higher temperatures are indicated for the northwest. By the middle of the week temperatures will be rising generally over the central and western portions of the country, followed by a fall over the northwest toward the end of the week.

Harry Orchard Seeks Pardon.

Boise, Ida., Sept. 8.—Harry Orchard, self confessed assassin of former Governor Frank Steunenberg, and at one time sentenced to be hanged, has published the required notice in a Caldwell paper that he will apply to the board of pardons at the October meeting for a full and absolute pardon. The Metropolitan church of Waukesha, Wis., is at the head of the movement for pardon.

Militia Prepares for Cold Weather.

Calumet, Mich., Sept. 8.—Believing that the copper miners' strike will be prolonged, the military authorities have begun preparations for cold weather. The men will be thoroughly equipped for winter. Further evidence of a long struggle is the boarding up of mine buildings and shafts at some of the mines in the north end of the district.

Negro Shoots Chief and Officer.

Guthrie, Okla., Sept. 8.—Chief of Police Lon Muxlow and Policeman I. H. Caldwell were shot and killed here by Lon Green, a negro, at Green's business place, where the officers went to make a liquor raid. Much excitement prevailed here and talk of lynching was freely heard.

Kills Wife and Rival.

Los Angeles, Sept. 8.—Harry Sharpley and Mrs. Frank Kiser were shot to death here and Frank Kiser was arrested on a charge of murder. The shooting occurred at Kiser's home.

Has Leased the Richey Farm.

Ray McDowell has rented the farm of the late R. G. Richey for the coming year and will take possession this fall.

Dark Days Coming!

With the shortening of the hours of daylight the strain upon the eyes becomes greater, with its consequent effect upon the vision.

Have Your Eyes Examined NOW.

Those just bordering upon the time when they need glasses will do well to attend to it at once, while those already wearing them should see to it that they still fit as they ought to. Good eyesight can be fostered just as you can preserve anything else with proper care.

**JAP MOB STORMS
FOREIGN OFFICE**

Demand Redress for Assassination of Director Abe.

CALL FOR MOVE ON CHINA.

Killing of Japanese at Nanking Basis of Action—Diplomacy is Called Failure by Speakers—No Police or Soldiers Put in Streets.

Tokyo, Sept. 8.—The assassination of Morihiro Abe, director of the political bureau of the Japanese foreign office, has inflamed the masses and a dramatic chapter in the history of the new Japan was written.

Fifteen thousand persons gathered in mass meeting in Hibiya park, calling for military action against China. A majority of these marched to the foreign office and clamored for admission. They demanded the dispatch of troops to China to take such measures as were necessary to obtain satisfaction for the killing of Japanese at Nanking, or failing this, the resignation of the minister of foreign affairs, Baron Nobuaki Makino.

The speakers denounced the emptiness of Japanese diplomacy in connection with California and China, and insisted that the insult to the Japanese flag at Nanking should be wiped out. The manifestation clearly was an explosion of popular resentment against the ministry in its treatment of the California and Chinese questions.

Profiting by the lesson of the riots which followed the conclusion of peace between Russia and Japan, the government reduced the risk of violence by refusing to allow a single soldier or policeman at the scene. The manifestations, many of whom were students, were orderly the early part of the proceedings.

Foreign Office Locked.

Suddenly the cry to march on the foreign office was raised and there was a general stampede, many persons barely escaping being crushed. The crowds surged through the streets, headed by gesticulating leaders and reached the foreign office to find that the high iron gates were locked.

Scores of the demonstrators pounded on the gates and called for them to be opened, but in vain. The under-officials refused. A delegation was appointed, the members of which climbed the gates, and then ensued a long parley. Meanwhile the crowd was cheerful, but determined.

It showered compliments on a beautiful Geisha girl struggling by in a rickshaw, but angrily stoned a photographer seeking to take snapshots of the chief delegate, who, having returned, mounted the portals to report progress. Perched unsteadily on the pickets, he made a fantastic picture and in a harsh harangue declared that the committee demanded either the dispatch of troops or the retirement of the foreign minister.

"We told the officials," he shouted, "that the voice of the people speaks, that the agitation will never end until our demands are granted."

The extraordinary situation continued for five hours, the delegates emerging periodically to pacify the crowd. Finally, when the discussion ended, they reported that Baron Makino had promised to receive them Sept. 15. This was greeted with howls of derision and a thousand marched to the foreign minister's residence, three miles distant. Police, however, prevented their near approach.

UNDERGROUND TRAIL FOUND

Conspiracy to Spirit Away Chinese Fugitives Discovered.

Chicago, Sept. 8.—Discovery of an "underground railway" for the spiriting away of Chinese criminals and fugitives from justice and to aid in the entrance of Orientals into this country, was reported by detectives at work on the murder of Charles Sing, a Chinese merchant.

The alleged conspiracy extends from British Columbia to Hongkong and has branches in many cities of this country and at least one in Mexico. The discovery was regarded by the police as sensational.

Oust Comptroller of East St. Louis.

St. Louis, Sept. 8.—Mayor Chamberlin of East St. Louis ousted City Comptroller Rodenberger and appointed as acting comptroller W. W. Kimball, a clerk in the office. The trouble is a sequel to the disappearance from the vaults of Rodenberger's office of five volumes of municipal records—a disappearance that occurred on the eve of a grand jury inquiry into East St. Louis affairs.

Jessie Wilson to Be Wedded Nov. 25.

Cornish, N. H., Sept. 8.—The marriage of Miss Jessie Wilson, second daughter of President Wilson, to Francis B. Sayre of New York is to take place at the White House in Washington, Tuesday, Nov. 25. The announcement was made from the summer White House by Mrs. Woodrow Wilson through her secretary, Mrs. Isabella L. Hagner.

Dredges Will Finish Work.

Panama, Sept. 8.—The dry excavation of the canal has been completed the steam shovels working in the Culebra cut having removed the last rock. The further excavation of the canal will be completed by dredging.

BASEBALL LEADERS ARE CLOSE PRESSED

Giants and Athletics Each Show Slump in Form.

New York, Sept. 8.—There has been an unmistakable scare in the camps of the probable world's series contenders for several days and the beginning of the new playing week finds anything but a feeling of serene satisfaction prevalent around Shibe park and the Polo grounds.

Both John McGraw and Connie Mack doubtless believe their respective teams will top the lists when the major league season ends Oct. 5. But each can hardly help realizing that unless his men play better baseball than they have exhibited on most of their recent appearances, the plans for post-season activities of Giants and Athletics may have to undergo sudden and radical revision.

In each league the best the pace makers could pry out of the week's work was an even break. The Giants saw their lead drop from twelve games to eight. The Athletics' lead was reduced by one game to six and a half.

TAKE NOTE OF HEART BEATS

When That Organ Says "Luff-Duff" It Is Full Time to Take a Vacation.

Do you know what a doctor hears when he sounds your chest and listens to your heart beating?

Your heart, if it is quite sound, makes a noise very like "lub-dup, lub-dup, lub-dup" all the time, Pearson's Weekly says. The two syllables come very quickly together and between each "lub-dup" there comes a pause, the short period when the heart is resting, as it were.

The "lub" sound is due to the blood flowing out of the heart and the "dup" is the closing of the heart's valves. Just by the loudness of these two syllables the doctor knows if your heart is working as it should be.

Supposing the "dup" is very loud, for instance; that tells him that the valves are being "slammed to," just as a door is, and that the pressure is greater than it should be. The cause of this is generally what is known as an "aneurism."

If the valves are not closing properly the doctor hears a sound like "duff" instead of "dup." The heart is then said to have a "murmur," and the physician knows what steps to take to correct it.

When the first sound, "lub," is softened into "luff" it warns the doctor that his patient has something wrong with the mitral valve. The "lub" sound is always very much weaker when one is suffering from fever, and it is this weakness, due to the weakness of the heart muscles, which makes the doctor so anxious at those times.

When the heart says "luff-duff" he tells you to knock off work for a time and have a complete rest, for your heart is in a bad way.

LIKE SO MUCH "DEAD HORSE"

Man Who Paid Debt With Check Will Die in the Belief That He Has Settled Twice.

A man made a bet with his wife—which was indiscreet.

The wife won—which was foreordained.

The man wrote the wife a check for \$5 in payment of the bet—which was sad.

The wife cashed the check at the grocery, but forgot to endorse it—which was natural.

The grocer, despite the lack of endorsement, paid it to a packing house collector—which was careless.

The packing house collector turned it in—which was all in a day's work. A packing house office man discovered the lack of endorsement—which was good work.

He handed it back to the driver and docked the driver's salary—which was system.

The driver placed the check in his white duck coat and sent it to the laundry—which was unwise.

The laundry mutilated the check beyond recognition—which was unwise. Which is why the driver asked the cashier to ask the grocer to ask the man's wife to ask her husband to write a duplicate check. Which is why the man feels like he is paying that bet twice.

Animal Training.

Most people have heard of the celebrated calculating horses of Elberfeld, who can do anything up to calculating square roots, in addition to being proficient at spelling. It would now appear, according to the Paris Press, that although these feats are actually performed they are due to a very clever device.

An animal trainer has informed the Matin that he has utilized a system of wireless telegraphy for training animals to do all sorts of tricks. The receiver is placed on the horse's bridle, while the trainer or an assistant manipulates the transmitter, and by a code of signals, which are not difficult to teach, the animals can be made to give any desired "answer." It is suggested that this system is used in the case of the celebrated Elberfeld horses. Prior to the utilization of wireless telegraphy, the trainer mentioned employed a method of signals by means of a toothpick.

British Union Jack.

The union jack, the national banner of the United Kingdom of Great Britain and Ireland, is formed out of the combination of the crosses of St. George, of St. Andrew and of St. Patrick, these three crosses being the national banner of England, Scotland and Ireland, respectively. The first union jack, which was introduced by royal proclamation in 1606, three years after the union with Scotland, bore only the crosses of two countries, England and Scotland. This combination was proclaimed in 1707 as the national flag of Great Britain. On the union with Ireland, the cross of St. Patrick, with its four limbs, edged with white on one side, was added.

Sleep Is First Necessity.

A very frequent cause of nervousness in many persons is loss of sleep. It gives rise to headaches and neuralgia, and is mainly responsible for other distressing ailments. The man or woman whose sleep is unduly disturbed as the result of heavy mental work, by night watching at the bedside of the sick or through irregular hours of employment, should endeavor to secure a little refreshing sleep whenever possible in order to make up for the loss sustained. For not only will headaches and other ailments develop from sleeplessness, but the nervous system will soon become considerably deranged as a consequence. So be careful upon this point.

To Detroit and Toledo.

John Sewell of the firm of Sewell & Carter left Sunday for Detroit, Mich., and Toledo, O., where he will visit automobile factories. At Detroit he will visit the Cadillac factory, and at Toledo the Overland factory.

Meeting as a Board.

The members of the county court, with County Surveyor Reese and Deputy Sheriff Dee Callahan are meeting today as a county board of equalization. They expect to be in session until Wednesday.

School Opened Today.

St. Patrick's school opened Monday with a good attendance. There were more present Monday than on the first day of school of last year.

Miss Ruth Cannon of Bowen, Ill., left for her home Monday morning, after a ten days' visit with her cousins, M. D. Kemp and family.

Miss Margaret McMillen returned to her home in Pickering today, after a week's visit in Red Oak, Ia., at the home of W. A. Hitchcock.

Miss Ora McMillen, who has been visiting her parents in Pickering, returned today to her work in Topeka, Kan.

Mrs. S. F. McCrary returned Saturday night from Chicago where she had been buying fall and winter millinery.

Mr. and Mrs. Howard McCominn returned Saturday night from a several weeks' stay in Kansas City.

Miss Mabel Rogers returned Sunday night from a visit with relatives in Abbott, Colo.

Miss Babe Howden of Skidmore is visiting in the city with Miss Nelle Conrad.

Lawrence Gowney and daughter of Conception were city visitors Monday.

George Robb Ellison spent the day Monday in Albany on business.

Mr. and Mrs. J. H. Hoy of Clearmont were city visitors Monday.

Clark Bancroft of Clearmont was in the city Monday.

AS THE GROUCH SEES GROCER

Most Useful Member of Community Unkindly Dealt With by Expert Fault Finder.

A grocer is a man who spends his time in exchanging adulterated foods for unadulterated money.

The best time to visit any grocer is after you have had a large, square meal; the worst time to visit him is in the afternoon about 5 o'clock, when you are half starved and everything in his place looks more or less real. But after you have given him an order under these famished conditions, do not go home to your wife. It is better to give her a few days in which to recover, and incidentally get even with you by ordering two new Paris hats and rhododendron kimono.

To be a successful grocer one must have a rich Oriental vocabulary that can describe the same tea as if it were in each case really different and a complete knowledge of aniline dyes.

Also, every grocer should be married. He can then explain to his customer when he is trying to sell her some combination of wood pulp and asbestos for nourishment: "My wife has tried this for three weeks and still lives."—Life.

Estimating Your Supplies

In large institutions the time that certain supplies last has been tested down to a fine point. Only by knowing very carefully how long certain supplies will last can the army and other large institutions buy intelligently and thus take advantage of the reduced price given on large orders. While many women are "good managers," many more should more definitely test how long certain supplies last the family under average conditions. It is possible to estimate how long coffee, tea, staples, cereals, etc., will last, and make large quantity orders on which the housewife can obtain a generous discount. But unless this quantity buying is based on careful estimates it will not result in the saving of money and time it otherwise would.

Vegetables as Hair Ornaments.

Now that fruit has reached the hair, in the shape of little oranges for the bride's coiffure, will it come to vegetable again, as it did among the absurdities of Marie Antoinette's time? "Ask my niece, Mme. de Matignon," we read in the memoirs of the Marquise de Cregny, "if it is not true that in 1785 she had her head dressed a la jardiniere, with a red check duster, into which M. Leonard (the queen's hair dresser) had artistically inserted a small artichoke, a broccoli, a fine carrot and some radishes. When Don Don Picot (the Comtesse de Lameth-Picot, a rich creole) saw it she was so delighted that she exclaimed, 'I will never wear anything but vegetables. It is so simple, and more natural than flowers.'"

You can't do better than patronize our job office.

NO. 83.

GAINS TWO INCHES

WATER IN RESERVOIR IS NEAR NORMAL AGAIN.

ICE SUPPLY IS BETTER

Anyone Can Get Ice by Coming After It—Harrison Bros. Receive Nine Tons.

At last there is ice. Not very much, but enough for temporary relief. There is not enough to start the wagons on their routes over town again, but any one who wants ice may get it by going after it. The water supply is getting near normal again, two more inches being gained in the reservoir Saturday and Sunday. Manager Denny says the supply looks safe to last a reasonable length of time until a rain comes to put us past all danger.

The Everhart plant manufactured some ice Sunday and is running today. Mr. Everhart and Harrison Bros. received a shipment of nine tons of ice from St. Joseph this afternoon. They will not haul to the houses, but Mr. Everhart says he will sell ice to any one who will come after it for \$1 per hundred pounds. The men working on his well succeeded in getting hold of and taking out the bit which fell to the bottom of it last week. Mr. Everhart stated this morning that he would have the well sunk 500 feet before he stopped in the effort to strike water. F. G. Shoemaker could not get the ice he was after Saturday, but he is trying to get shipments from other places.

This supply of ice which the dealers have is augmented by the small shipments which some of the business firms are continuing to receive. F. P. Reuillard received another two tons today, which made it possible for him to continue making ice cream.

An excellent supply of water was had nearly all day Saturday and Sunday, and as long as the present conditions hold the water will be turned on from 6 o'clock in the morning until 8:30 at night. This service has been made possible by the work accomplished Saturday by the combined forces of the city's men and those sent here by the Burlington railroad. Their work so increased the flow of water that the Burlington's men did not think it necessary to stay any longer and left this morning. The city's men continued to work all day Sunday.

Manager Denny said this morning that he thought the water supply was safe. An excellent flow, which looks as if it will last, is now coming down the river. However, if it should suddenly give out Mr. Denny had an engine and pump ready to go farther up the river and pump water from the pools.

Fishing on Nodaway River.

Judge Floyd Westfall and Mrs. Westfall and Mr. and Mrs. Pay Campbell of Barnard spent several days last week camping and fishing on the Nodaway river near Quitman. Judge Westfall said Monday that he thought that about 1,200 pounds of fish were caught in that time. The biggest catch was one of 27 pounds.

Saw the Keokuk Dam Opening.

William and Kenneth Van Cleave returned Saturday from a month's visit with relatives at Moberly and LaGrange, Mo. The boys witnessed the opening of the Keokuk dam and made the trip from St. Louis and return on a boat.

Peter Birkenholz and son, Robert, of Monroe, Ia., and Guy Culver of Greenfield, Ia., who have been visiting Mr. and Mrs. Lafa Stamper for a few days, left Saturday for their homes. Mr. and Mrs. Charles Birkenholz of Monroe, Ia., are guests at the Stamper home. Mrs. Stamper, who has been seriously ill for some time, is slowly improving.

Q. D. Carmichael of near Burlington Junction writes as follows: "Come on with some more Democrat-Forum as I find we can't get along without it."

DEATH AT JUNCTION.

Mrs. Ray Mathews Passed Away at Burlington Junction Saturday Evening.

Mrs. Ray Mathews died at her home in Burlington Junction at 6 o'clock Saturday evening. She had been an invalid for several years, and her death was caused by cancer. The funeral was held at 1:30 o'clock this afternoon, Rev. J. W. Love conducting the services. Mrs. Mathews is survived by her husband and two children. The family had lived in Burlington Junction only a few months, coming there from Des Moines, Ia.

DROPS SEVERAL DEGREES.

Thermometer is Lowest in Two Weeks—Cooler Weather Predicted.

Saturday was the twenty-ninth day this summer that the temperature has been 100 or more, and also was the eighth consecutive day when the mercury was above 100. This equalled the twenty-year record for hot days in a row, the year 1901 having eight straight days with 100-degree weather. Saturday's temperature was 101.

On Sunday the mercury went up to 97. And today it was only 94 at 1:30 o'clock by the government thermometer, being the lowest since two weeks ago. Today was the first indication of prospect of continued cool weather.

Cooler weather during this week is promised to the central part of the country by the weather bureau, but no prospect is held out for relief in the east and south, and even higher temperatures are indicated for the northwest.

The eastward movement of a northwestern high pressure area, the weekly bulletin says tonight, "will be attended by lower temperature early in the week over the central plains states, the Missouri and upper Mississippi valleys, and the upper lake region, and probably by some moderation in the Ohio valley and the lower lake region. Light frosts are probable Monday morning in the lowlands of northwestern Minnesota."

In the east and south there will be temperature changes during the week, but not decided, while in the northwest it will be warmer during the middle of the week, temperatures will be rising generally over the central and west portions of the country, followed by a fall over the northwest toward the end of the week.

The marked disturbance now over southern Alaska will extend eastward and southeastward, causing rains early in the week over the Pacific northwest, and about the middle of the week over the northwestern states east of the Rocky mountains. No other precipitation of consequence is indicated during the week except in the south, where thunder showers are likely to continue the greater portion of the week.

"There are no present indications of a Tripoli disturbance."

Returned to Maryville.

George S. Heck, who has been visiting in Waynesboro, Pa., for the past year, returned to Maryville Sunday. Mr. Heck expects to stay here.

A SERIOUS CHARGE

WM. GARNER WAS ARRESTED FOR WHITE SLAVERY.

HE WAS LIVING HERE

Mrs. Gertrude Holbrook, With Whom He Was Living, to Accompany Him to Emporia.

Thomas O'Connor, sheriff of Lyons Kan., arrived in Maryville Monday noon from Emporia and took into custody William Garner, who was arrested here Saturday on a charge of white slavery preferred at Emporia. They, together with Mrs. Gertrude Holbrook and two children, with whom Garner was living, left this afternoon for Emporia.

Garner came here three weeks ago with the woman and children, and they have been living in a tent at the south end of Lovers' Lane. He has been working on the farm of C. D. Bellows. Saturday afternoon Chief Moberly received a telephone message from Sheriff O'Connor asking him to arrest Garner on the previously stated charge. The man was immediately put under arrest and word sent to the Kansas authorities.

Mrs. Holbrook is a divorced woman, but it is understood that the charges are preferred by her former husband. Garner has a wife living in Kansas, where he worked as a farm hand.

When asked today what he had to say to the charge against him, Garner replied:

"I am not guilty. I rented rooms and kept the woman for two months before I came here, and every one knows she accompanied me willingly."

DROUGHT LOSS IN MISSOURI.

Less Than Half a Corn Crop—Water Scarce on Nearly All Farms.

The corn prospect in Missouri declined 29 per cent in August and the present condition is only 41.8 per cent of normal, according to a report issued Saturday by T. C. Wilson, secretary of the state board of agriculture. The state last year raised 243 million bushels of corn on an August condition of 86.8, more than twice as high as the present condition. Conditions by sections are: Northeast, 43; northwest, 45; central, 41; southwest, 34; southeast, 46. Even in the northwest section, where heat and drought did comparatively little damage earlier in the season, the crop suffered greatly during August. There is much good in river bottoms and on low lands. On the other hand, there are upland fields that will hardly make good fodder.

The crop is very poor in the counties south of the Missouri river and along the west line. Benton and the counties to the south have also been hard hit. North of the Missouri river the greatest lack of rain has been in Audrain and other northeast counties. It is estimated that 20 per cent of the corn crop of the state has been cut and that 40 per cent more will go into the shock. More silos than ever before will be filled.

Dry weather has greatly interfered with preparations for sowing wheat. Correspondents report only 30 per cent of the ground plowed, compared with 41 per cent a year ago.

Water for live stock is now the most serious matter with the average farmer. Eighty per cent of the correspondents report a water shortage. Ponds have dried up and many springs and wells that have never failed are dry or nearly so.

Pastures are brown and bare and the condition for the state is 25. It is estimated that 30 per cent of the farmers are now feeding new corn. However, owing to the general shortage of live stock there may be no extraordinary demand for feed.

Won Many Prizes.

In a letter to her parents, Mr. and Mrs. W. F. Smith, Mrs. Blake Alexander tells of the McDonough county fair, in session at her home town, Bushnell, Ill., the past week. Mrs. Alexander won fifteen firsts and seven seconds on preserves, jellies, canned fruits, fancy work and hand painted china. She carried off seven points on hand painted china, five firsts and two seconds. This fair was a decided success, notwithstanding weather conditions.

Left for California.

Miss Jessie Mutz left Saturday evening for Hanford, Cal., where she will teach domestic science in the high school. She stopped enroute at Denver, Col., for a two days' visit with Mrs. Mary Fletcher.

APPOINTED AGAIN

REV. RANDOLPH SENT BACK TO MARYVILLE CHURCH.

ONE CHANGE IN COUNTY

Rev. Hoover Transferred to Agency—Revs. DeWitt, Patton and Holliday Were Returned.

Rev. J. D. Randolph has been sent back to Maryville for the coming year as pastor of the Buchanan Street Methodist church by the Southern Methodist conference in session at St. Charles. The conference appointments were made at noon today.

Rev. Randolph is attending the conference and is expected home Tuesday.

REV. J. D. RANDOLPH.

He has been pastor of the church here for one year, and during that time the church has made good progress. He is a popular pastor in the church as well as out of the church.

Rev. S. E. Hoover, who has been in charge of the Ravenwood and Guilford Southern Methodist churches, was transferred to Agency, and Rev. D. S. Rainsford selected to take Rev. Hoover's place.

Rev. M. DeWitt was returned as pastor of the Barnard charge.

Rev. J. F. Patton was also sent back as pastor of the Skidmore charge.

Rev. Holliday was returned to the Elmo charge, where he has been the past year.

DEATH AT PICKERING.

Mrs. John Alexander Died There Sunday Morning—Funeral Today and Burial at Maryville.

Mrs. John Alexander died at 5 o'clock Sunday morning at her home in Pickering, after a summer's illness. She suffered from a complication of diseases. The funeral service was held at the home at 1:30 o'clock this afternoon by Rev. H. J. Duoker, and the body was brought to Maryville for burial. Mrs. Alexander is survived by her husband and sons, James of Lincoln, Neb.; Thomas, Charles and William of Pickering.

TO LEAVE FOR ENCAMPMENT.

John M. Evans and J. D. Dickerson Are Planning to Go to Chattanooga, Tenn.

John M. Evans and J. D. Dickerson of Maryville are planning to leave Saturday for the forty-seventh national encampment of the Grand Army of the Republic, to be held in Chattanooga, Tenn., September 15 to 20. Mr. Evans will represent the local lodge of the G. A. R.

Coulter Will Probated.

The will of M. M. Coulter, who died in Arkoe a few months ago, was probated Monday in probate court. The will leaves the estate to the following, share and share alike: James F. Coulter, Jennie Corrough, Ivan Coulter, Joseph D. Coulter and El Dora Virginia Coulter. Frederick Coulter was named as executor. The will was written August 12, 1911, at Bassett, Neb., and was witnessed by B. E. Chapman and M. J. Lloyd.

Was His First Sunday.

Rev. Louis M. Hale, the new pastor of the First Baptist church of this city, occupied the pulpit of that church Sunday, being his first one. Good crowds were in attendance both morning and evening and excellent sermons were given.

Operated on at Hospital.

Mr. and Mrs. J. L. Salsman of Chase county, Neb., came to Maryville last week, and Mrs. Salsman was operated on Monday at St. Francis hospital by Dr. Will Wallis, Jr., and Dr. C. T. Bell.

BAND TO PLAY AT RACES.

Maryville Band to Go to Parnell—Will Give Concert Next Sunday Afternoon Uptown.

The Maryville band will play at the races to be held at Parnell on Friday and Saturday. On Sunday afternoon the concert will be given in the band stand uptown and will consist of a sacred concert. Then the band will give their weekly concert on Thursday evening as usual.

DEATH OF WILBUR CURNUTT.

The 10-Year-Old Son of Mr. and Mrs. John Z. Curnutt Passed Away Monday Noon.

Wilbur, the 10-year-old son of Mr. and Mrs. John Z. Curnutt, died at 12:30 o'clock Monday afternoon at the family residence, 403 West Second street, after an illness extending over the greater part of the summer of heart trouble. He leaves to mourn his loss seven brothers and sisters, besides his parents.

The funeral arrangements have not yet been completed.

TO GO TO CONFERENCE.

Rev. C. R. Green of the Harmony Church to Leave Tuesday—To Be Returned to Harmony.

Rev. C. R. Green, pastor of the Harmony church, east of Maryville, will leave Tuesday morning for conference at Nettleton, Mo. Rev. Green is president of the conference which comprises thirty-five ministers and seventy-five churches. The conference is of the Methodist Protestant church.

Rev. Green has been pastor of the Harmony church for four years and will be returned to the Harmony church. The congregation of the church has requested that he be sent back and have also raised his salary.

TO KEEP TAB ON INSURANCE.

Federation for Protection of Workers and Public to Be Formed.

A state-wide meeting of citizens directly or indirectly engaged or interested in the insurance business will be held in St. Louis late this month to organize the insurance federation of Missouri. The state will be divided into districts, with a committee in a central town of each to receive and act on complaints to ferret out unfair practices among insurance men. A special committee will be named to keep a close eye on bills proposed in the state legislature and endeavor to avert their death in committees.

Among the purposes of the federation will be:

To establish and maintain high, clean standards of professional conduct among insurance workers; to eliminate and correct all evils or abuses which may creep into the insurance business; to educate and inform the public as to the particular benefit of each form of insurance; to promote and foster a spirit of fraternalism and mutual helpfulness among the insurance workers of the state and to co-operate with the public in the enactment and enforcement of just and beneficial insurance laws.

Visiting With His Sisters.

J. Wesley Jones of Loveland, Col., arrived Monday from Burlington Junction and will spend the week with his sisters, Mrs. M. M. Rittenour and Mrs. J. F. Montgomery, and families. Mr. Jones accompanied the body of his mother, Mrs. Rachel Jones, to Burlington Junction, where the burial took place Saturday.

LARGE AUTO TOUR

WILL PASS THROUGH MARYVILLE SEPTEMBER 18.

GIVE THEM A WELCOME

Every Motor Car Dealer and 200 Business Men of Kansas City Will Be Represented.

The trade tour of Kansas City, under the auspices of the Motor Car Dealers' association of that city, will come to Maryville on Thursday, September 18. According to the schedule they are to arrive here at 12:30 and leave at 2:30 p. m. Dinner will be taken here. The party will leave Kansas City on September 15 and they will visit a number of towns in Missouri.

This is the first opportunity that the people in Northwest Missouri have had to see a live automobile show parading through its country roads and city streets. There will be represented in dollars more than \$150,000 worth of motor cars, averaging in price from \$500 to \$5,000. These cars will be filled with Kansas City business men who are coming into this territory to get acquainted with the citizens of the different towns through which the tour will pass.

This tour is under the auspices of the Kansas City Motor Car Dealers' association, and practically every dealer in Kansas City who sells gasoline driven cars has entered his car in this tour. With from 150 to 200 enthusiasts coming into our midst, it behooves each citizen to see that the visitors get a hearty welcome. This tour from Kansas City is an annual event, and probably it will be a good many years before this same route is covered again by the tourists, so let everyone turn out to see them.

Col. Frank M. Buffham, the state highway engineer, will make the entire trip, and Governor Major has promised to make at least two or three days of the tour. Committees from the commercial clubs and other business men's associations will accompany the motorists, and it is going to be a great get together and get acquainted occasion, and we hope that everybody who is interested in seeing this section of the country boosted will get out and do his share in this celebration.

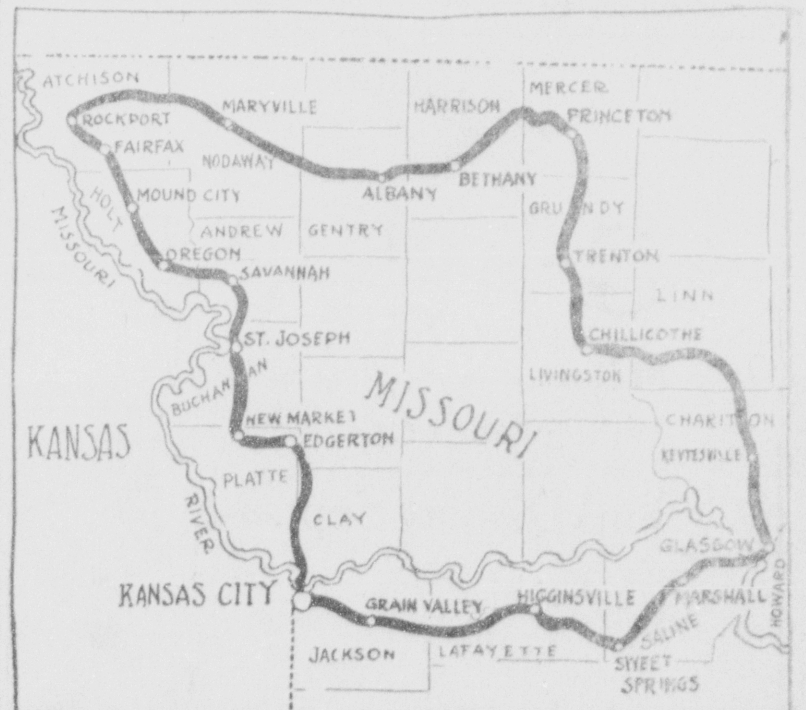

The following is the time of arrival and departure on the day that the tourists are in our city:

7:00 a. m.—Leave Bethany.
7:30 a. m.—Arrive New Hampton.
7:30 a. m.—Leave New Hampton.
8:15 a. m.—Arrive Albany.
9:15 a. m.—Leave Albany.
9:55 a. m.—Arrive Stanberry.
10:45 a. m.—Leave Stanberry.
11:30 a. m.—Arrive Ravenna.
11:50 a. m.—Leave Ravenna.
12:30 a. m.—Arrive Maryville.
2:30 p. m.—Leave Maryville.
3:10 p. m.—Arrive Burlington Junction.
3:30 p. m.—Leave Burlington Junction.
5:15 p. m.—Arrive Tarkio. Night's stop.

THE WEATHER

Unsettled but generally fair tonight and Tuesday; lower temperature tonight; moderate winds.

The Route of the Kansas City Trade Trip Which Comes Here September 18

JEFFERSON CITY LETTER.

(From Democratic Press Bureau.)
The state capitol commission board saved \$20,000 in the purchase of additional grounds for the new capitol, buying for \$171,000 what the forty-sixth general assembly secured an option on for \$192,000. In letting the contract for the foundation of the new capitol for \$91,000 and the power house and tunnel for \$42,495, the board showed the estimate for another \$20,000 saving. It's a way boards have under Democratic administrations.

Harmony and success should be and are the watchwords of all true Democrats. Stand together, boys, shoulder to shoulder for the faith of the fathers. When you speak of the Major administration you instinctively think of better school laws, better road laws and better laws for regulating public utilities. The Major administration stands for the best there is in state government. And that's the mission of the Democratic party—to give the people the best government possible.

Now that the insurance war is done for, what was it ever begun for? The only thing it demonstrated was that Governor Major has a backbone like a circus pole and cannot be bamboozled into conveying the legislature at the command of powerful corporations.

If President Wilson can safely guide the ship of state out of the troubled Mexican waters, as he did out of the Willow Japan sea, he will prove himself one of the biggest men of the century. Peace with honor is the highest mark of statesmanship. Any fool can plunge a nation into war, but it takes a wise man to preserve peace with honor.

The national and state Democratic administrations are proving equal to every emergency and are making good all along the line. The people are at the bat and special privileges are being sent from the field in disgrace.

The Value of the Small Farm.

The editor of Farm and Fireside writes as follows in the current issue of that publication:

"The tendency of this generation is toward the corporate ownership of farm lands—the intense industrial spirit is back of that tendency. But with the advent of the large farm the farm home disappears, farm life is snuffed out, and we have in its place a big 'system' which for the time being may be able to show satisfactory financial results, but which will ultimately mean both financial dissatisfaction and social unrest. The small farm well utilized leads to a contented community; the large farm, even if well cared for, cannot receive the care it should; it results in a complete loss of community life and pride."

"The Stoddard Library, I find, is what the author claims, 'A thousand hours of entertainment with the world's greatest writers'—giving the reader a taste of those fruits of the pen that have fed the mental world for generations, and furnishing a guide to still wider reading.—Rev. E. G. Strout, Nashua, New Hampshire.

The August Drought.

The past month of August left a record for heat and lack of rain that has not been equalled in a long number of years. The government weather bureau has been in existence for twenty-five years and it has no record of a previous August during which the maximum heat remained so high, above 90 on the average for the thirty-one days. In some sections of the country no rain whatever fell during August, and in fact, over most of the west, southwest and the middle states very little rain has fallen since June and not much during that month.

Scientists say that cold and heat come and go in cycles, but they have never been able to foretell a cycle as they do the coming and going of comets, eclipses of the sun and moon and other heavenly phenomena. They can foretell the coming of an eclipse of the sun or moon, and usually foretell the coming of a comet for many years in advance to the exact time. There is no guess work about this branch of science. It is mathematics well applied. But the coming and going of heat and cold constitute an entirely new field.

The public generally like to see the weather prophets skinned alive. This is but natural. The prophets don't know much about the weather a few days in advance. They can tell that a storm is coming when the storm has formed and the telegraph tells them in which direction it is coming or going. It does not require much scientific knowledge to do all of this. "When it is black overhead, thundering and lightning all around and pouring down in the middle," anybody knows it is not only going to rain, but is in fact raining.

Science has accomplished much, but it has never been able to do much with the weather. Some years there is little or no snow and some years an over-abundance. Then there are pleasant summers and hot summers like the late unlamented one when vegetation sizzles up and sweating, fuming humanity, like the beasts of the field, must suffer. And yet in the course of a year, in this climate, there is an abundance of cold and heat, of rain and drought, to make an ideal four seasons if the heat, the cold, the rain and the drought could be properly distributed. Here is where science amounts to nothing, and yet in years to come it may be discovered that the whole thing is simplicity itself. People would ridicule such an idea now, just as they ridiculed Robert Fulton and Prof. Samuel F. B. Morse, and just as they would have ridiculed Thomas A. Edison had he not sprung the phonograph as a surprise, and not until after he had perfected his invention. Ten years ago few would have believed that the automobile would be in as general use as it is today, and yet it stands to reason that the horse and the mule must go, and other and cheaper power will take their places.

The time may come when a community can get rain when it needs the same, and when an approaching blizzard can be switched with a warm current. Today we know very little about the overhead currents of air. What we do know now, but did not know a few years ago until Marconi told us, is that there are overhead currents of electricity which can be made serviceable in transporting messages across the ocean. These currents have been utilized, and yet wireless messages are but in their infancy.—Jefferson City Democrat-Tribune.

Parnell to Have Races.

Parnell is to have races on Friday and Saturday, September 12 and 13, at the race track in that city. There are to be seven running races a day and there will be two running races for farmers' horses. B. A. Jones is president of the association, F. A. Briey, secretary, and James M. Stevens, manager. Many horses from a distance will enter as will the Jones race horses.

Miss Lois Harrison of Bethany arrived Saturday evening to begin her senior year at the Maryville Conservatory of Music.

News of Society and Womens' Clubs

M. M. M. Club Meeting.

The M. M. M. club will meet Wednesday afternoon at the home of Mrs. C. J. Eckert. There will be a discussion on labor saving devices for the kitchen and laundry.

H. J. Becker to Be Married.

H. J. Becker is to be married early in October to Miss Carrie Wigginton of Macedonia, Ia. This fact has been known to Mr. Becker's intimate friends for some time, but was not publicly announced until today. Miss Wigginton is known to a number of people here, having visited here last July.

Return From Honeymoon.

Prof. and Mrs. E. A. Horton arrived Sunday morning from a honeymoon trip to Menominee, Wis., where they had been since their marriage, July 24. They will remain in Maryville until the latter part of the week when, accompanied by Mrs. Hutton's mother, Mrs. J. D. Felter, they will leave for their future home in Pine Bluffs, Arkansas.

Thomas-Gallagher Wedding.

The marriage of Miss Anna Thomas, daughter of Mr. and Mrs. R. E. Thomas, and Mr. Charles Joseph Gallagher occurred Saturday evening at 6:30 o'clock, at the residence of Rev. Fr. Niemann, who officiated. The bridal couple were attended by Miss Mary Gallagher and Mr. Andy Thompson. Mr. and Mrs. Gallagher left soon after the ceremony for a honeymoon trip to Kansas City and points in Kansas and Oklahoma. They will be at home after October first in Maryville.

AUTOMOBILES TO BE A FEATURE.

Many Expected at the Missouri State Fair September 27 to October 2.

It is said that there are 10,000 more automobiles registered in Missouri this year than last. Many of these machines will doubtless be used by their owners in journeying to and from the Missouri state fair at Sedalia, September 27 to October 3.

Then on Monday, when the big auto parade takes place, hundreds of these buzz and buzz buggies and millionaire 'nobles' will crowd the great mile track, while city folks and farmers, real, retired and rubber tired, prove how rapid has been the transformation from limousine to limousine. This auto parade will not only be spectacular, but it will also afford every interested person a fine opportunity to study car styles and construction and to talk with the man who knows.

The fine roads leading into Sedalia will be a joy to every man who goes to the state fair by auto. They are such as to insure pleasant travel. Rock roads do away with dust and mud. Pettis county, home of the Missouri state fair—always the first week in October—has elegant roads. Her roads are not "paved with good intentions." In all history there is to be found an account of but one road so paved—and it doesn't lead to the Missouri state fair, where every Missourian who can, "auto" go.

BARNARD NEWS ITEMS.

Clifford, the son of R. L. Key, who lives five miles west of Barnard, was painfully injured late this afternoon, when his hand was caught in a corn cutter and badly lacerated.

R. W. Bridges left this morning for points in Maryland on a two weeks' business trip.

The Barnard school opened this morning.

The Medicinal Qualities of Weeds.

The following is taken from the current issue of Farm and Fireside:

"Analysis of our edible weeds shows that they possess powerful medicinal qualities. The dandelion, for example, is replete with tonic salts and is a perfect tonic, besides being a natural liver medicine; the milkweed is a perfect tonic for the kidneys and a general cleanser of the system; the common yarrow is a good spring tonic for children; while red clover is one of the richest of all nitrogenous plants, and nitrogen is one of the most strengthening elements."

Holding Court at Albany.

Judge W. C. Ellison went to Albany Monday, where he will hold the regular term of circuit court for Gentry county.

To Meet Tomorrow Night.

The Eastern Star lodge will meet in regular session tomorrow night. A full attendance is desired.

Mr. and Mrs. Edwin Moran and children of near Topeka, Kan., are visiting in the city with Mrs. Moran's parents, Mr. and Mrs. John Hahoney, on East First street.

Nodaway Valley Bank

Oldest Bank in the County

Capital and Surplus - - \$125,000.00

SAVINGS DEPARTMENT

The officers of the Nodaway Valley Bank wish to announce the establishment of a Savings Department in connection with this institution.

This department will take care of your savings, paying interest semi-annually, and render every assistance in cultivating the habit of saving money.

No one need be ashamed to save money. No one need be ashamed to start with as little as a dollar. The habit of saving money, if persisted in, is bound to make for financial independence and to make a good citizen of the "man with the habit" as well.

You may start an account in our Savings Department with a dollar and make deposits from time to time. No red tape. No formality. Simplest thing in the world and think what it means.

The Savings Department of the Nodaway Valley Bank opened for business on

FRIDAY, AUGUST 22, 1913

Hours 9 a. m. to 3 p. m.

Don't overlook this invitation to start a Savings Account. Drop in next time you are passing and get started. We have a book for you. James B. Robinson, President. F. P. Robinson, Vice-Pres. J. D. Richey, Cashier.

Drought and Beauty.

The finest band that ever played
In all this world of wonder
Now could not charm like music made
By thunder, thunder, thunder.

If angel choirs were less aloof
They'd give us all a pain,
Compared with drumming on the roof
By rain, rain, rain.

The grandest sunset ever seen,
Of beauty rare as flood,
Could not now bring such rapture keen
As mud, mud, mud.

What most we wish most charms the view,
All beauty else seems sham;
Drought brings up skies of lovely blue—
But dern, dern, dern!
—Lee Shippey in Kansas City Star.

NERVOUS DYSPEPSIA, GAS OR INDIGESTION

Read "Pape's Diapiesin" Digests
2,000 Grains Food, Ending All
Stomach Misery in Five Minutes.

Time it! Pape's Diapiesin will di-
gest anything you eat and overcome a
sour, gassy or out-of-order stomach
surely within five minutes.

If your meals don't fit comfortably,
or what you eat lies like a lump of
lead in your stomach, or if you have
heartburn, that is a sign of indiges-
tion.

Get from your pharmacist a fifty-
cent case of Pape's Diapiesin and take
a dose just as soon as you can. There
will be no sour risings, no belching of
undigested food mixed with acid, no
stomach gas or heartburn, fullness or
heavy feeling in the stomach, nausea,
debilitating headaches, dizziness or
intestinal griping. This will all go,
and, besides, there will be no sour food
left over in the stomach to poison your
breath with nauseous odors.

Pape's Diapiesin is a certain cure
for out-of-order stomachs, because it
takes hold of your food and digests it
just the same as if your stomach
wasn't there.

Relief in five minutes from all stom-
ach misery is waiting for you at any
drug store.

These large fifty-cent cases contain
enough "Pape's Diapiesin" to keep the
entire family free from stomach dis-
orders and indigestion for many
months. It belongs in your home.—

CONGRESS' WORK IS OUTLINED

Anti-Trust, Railroad and Many
Bills to Follow Tariff.

AMBITIOUS LAWMAKING PLAN.

Tariff Bill Will Be Out of Senate and
in Conference Committee Before
End of the Week—Currency Meas-
ure in House.

Washington, Sept. 8.—The program
of anti-trust, railroad and currency
legislation that faces congress for the
ensuing twelve months has become
fairly well outlined in the last week.

President Wilson and the Democratic
leaders in the two houses of congress
apparently have agreed upon an am-
bitious plan of legislative work, which
will bring all of the most important
reforms contemplated by the Wilson
administration within the period be-
tween now and the end of the next
regular sessions of congress.

The tariff bill will be out of the sen-
ate and in the hands of a conference
committee of the house and senate be-
fore the end of this week. Currency
legislation promises to dominate con-
gressional activity within a few days.

Senate leaders are announcing that
anti-trust legislation and further im-
portant amendments to the railroad
laws are to among the first and most
important subjects taken up at the
regular session of congress next De-
cember. The influence of Republicans
as well as Democrats, who long have
been active in the fight for more ade-
quate regulation of the trusts will be
felt in the making of the reforms.

The currency hearings begun early
last week before the senate committee
on banking and currency have de-
veloped radical expressions of opinion
from many members of the senate
committee, which indicate that long
debate and discussions within the
committee will be necessary before
any general agreement can be reached
as to the merits of the administration
bill. That measure is to come form-
ally before the house today, and it is
believed it will be passed practically
without change in that body.

Senator Weeks (Rep.) will attempt
this week to force the committee to
act on his resolution putting off action
on the currency bill until Dec. 2. Ad-
ministration forces are lining up to
meet this issue, however, and Demo-
cratic leaders in the senate have made
it plain that President Wilson does
not favor such a course.

The final fights in the senate over
the free wool and free sugar duties
will occur tomorrow, when the bill
goes to its final passage; but the Dem-
ocratic forces are believed to be in-
act, and no modifications in the meas-
ure are expected.

TREVINO AS MINISTER OF WAR

Not to Take Reins as Provisional
President of Mexico.

Washington, Sept. 8.—While no an-
nouncements were made at any of the
government's departments of any
change in the diplomatic side of the
Mexican controversy, two phases of
the situation attracted much attention
in official circles.

One was the published disclaimer
by Nelson O'Shaughnessy, American
charge d'affaires at Mexico City, that
any positive assurances had been giv-
en him of the intention of Victoriano
Huerta not to be a candidate in the
approaching elections. The other was
the receipt of private telegrams from
sources close to the administration in
Mexico City that General Geronimo
Trevino would be made minister of
war soon, to succeed General Blan-
quet. It had been supposed here that
Trevino was ordered back to Mexico
City by Huerta to be given the reins
of the government as provisional pres-
ident while Huerta entered the presi-
dential campaign.

Mr. O'Shaughnessy's statement was
not surprising here, as it had been
pointed out from time to time by
Washington officials that they had re-
lied only on the repeated emphasis by
Federico Gamboa, Mexican minister of
foreign affairs, of the statement that
Huerta was ineligible by the constitu-
tion to succeed himself.

Jerome Promises to Appear for Trial.
Cotticook, Que., Sept. 8.—Unless a
hitch occurs, William Travers Jerome,
especially retained by New York state
to secure the return of Harry K. Thaw
to Matteawan, will appear before Dis-
trict Magistrate Mulvena here this af-
ternoon to answer to a charge of gam-
bling. His case had been set for hear-
ing on Thursday, but both sides agreed
to advancing it, and Jerome announced
over the long distance telephone from
Montreal that he would be here with
out fail.

Judge Hits Boy Chauffeurs.
St. Louis, Sept. 8.—Judge Wurde-
man of the St. Louis county circuit
court instructed the sheriff to prevent
the driving of automobiles on the
county roads by boys under eighteen
years old. Judge Wurdeman, as judge
of the juvenile court, said all youth-
ful drivers arrested would be put un-
der parole not to run an automobile
again until they are eighteen.

Oklahoma Gets Some Moisture.
Oklahoma City, Sept. 8.—Two-tenths
of an inch of rain fell in Oklahoma
City and vicinity, ending a drought of
sixty days.

POLICE BAR PARADE OF ATHLETES IN ROME

Eight Thousand in Assemblage
Received by Pope.

Rome, Sept. 8.—The streets of Rome
were guarded by police, carabinieri
and troops from the Church of St.
John Lateran, where the Catholic ath-
letes heard mass, to St. Peters, to
which edifice they marched to be re-
ceived by the pope.

A great parade that had been
planned was prohibited by the police
on account of threatened reprisals by
the anti-clericals. Notwithstanding the
strictest measures to insure order, a
few scuffles occurred amid cries from
the Catholics of "Long live the pope,"
to which the anti-clericals responded
by shouting, "Long live free thinking."

The athletes, pilgrims and others in
the assembly numbered 8,000.

NO ROOM FOR POOR PATIENTS

Cook County Hospital Full of the Rel-
atives of Public Officials.

Chicago, Sept. 8.—The Cook county
hospital, with a capacity of 1,900, is
kept so full of county and city officials,
their wives and their friends, that
there is no room left for the indigent
patients for whom it was intended, ac-
cording to charges made by County
Agent Meyer, in charge of the hos-
pital.

The charge was made after County
Commissioner Frank Ragen had at-
tacked Walter Wieskowski, an invad-
er kept at the hospital to keep per-
sons of means from gaining admission
to the institution, and depriving poor
persons from needed attention.

"Admission to the hospital formerly
had been by card of a county commis-
sioner," said Meyer, "and Ragen at-
tacked the investigator when Wies-
kowski refused to admit a well-to-do
patient with Ragen's card."

Cooler for a Time, Then Hot.

Washington, Sept. 8.—Cooler weath-
er the coming week is promised to
the central part of the country by the
weather bureau, but even higher tem-
peratures are indicated for the north-
west. By the middle of the week tem-
peratures will be rising generally over
the central and western portions of
the country, followed by a fall over
the northwest toward the end of the
week.

Harry Orchard Seeks Pardon.

Boise, Ida., Sept. 8.—Harry Orchard,
self confessed assassin of former Gov-
ernor Frank Steunenberg, and at one
time sentenced to be hanged, has pub-
lished the required notice in a Cald-
well paper that he will apply to the
board of pardons at the October meet-
ing for a full and absolute pardon.
The Metropolitan church of Waukesha,
Wis., is at the head of the movement
for pardon.

Militia Prepares for Cold Weather.

Calumet, Mich., Sept. 8.—Believing
that the copper miners' strike will be
prolonged, the military authorities
have begun preparations for cold
weather. The men will be thoroughly
equipped for winter. Further evidence
of a long struggle is the boarding up
of mine buildings and shafts at some
of the mines in the north end of the
district.

Negro Shoots Chief and Officer.

Guthrie, Okla., Sept. 8.—Chief of Po-
lice Lon Muxlow and Policeman I. H.
Caldwell were shot and killed here by
Lon Green, a negro, at Green's busi-
ness place, where the officers went to
make a liquor raid. Much excitement
prevailed here and talk of lynching
was freely heard.

Kills Wife and Rival.

Los Angeles, Sept. 8.—Harry Sharp-
ley and Mrs. Frank Kiser were shot
to death here and Frank Kiser was ar-
rested on a charge of murder. The
shooting occurred at Kiser's home.

Has Leased the Richey Farm.

Ray McDowell has rented the farm
of the late R. G. Richey for the coming
year and will take possession this fall.

Dark Days Coming!

With the shortening
of the hours of daylight
the strain upon the
eyes becomes greater,
with its consequent effect upon the
vision.

Have Your Eyes Examined NOW.

JAP MOB STORMS FOREIGN OFFICE

Demand Redress for Assassina-
tion of Director Abe.

CALL FOR MOVE ON CHINA.

Killing of Japanese at Nanking Basis
of Action—Diplomacy Is Called Fail-
ure by Speakers—No Police or Sol-
diers Put in Streets.

Tokyo, Sept. 8.—The assassination
of Morihiro Abe, director of the polit-
ical bureau of the Japanese foreign
office, has inflamed the masses and a
dramatic chapter in the history of the
new Japan was written.

Fifteen thousand persons gathered
in mass meeting in Hibiya park, call-
ing for military action against China.
A majority of these marched to the
foreign office and clamored for admis-
sion. They demanded the dispatch of
troops to China to take such measures
as were necessary to obtain satisfac-
tion for the killing of Japanese at Nan-
king, or failing this, the resignation of
the minister of foreign affairs, Baron
Nobuaki Makino.

The speakers denounced the empti-
ness of Japanese diplomacy in connec-
tion with California and China, and
insisted that the insult to the Japa-
nese flag at Nanking should be wiped
out. The manifestation clearly was an
explosion of popular resentment
against the ministry in its treatment
of the California and Chinese ques-
tions.

Profiting by the lesson of the riots
which followed the conclusion of peace
between Russia and Japan, the gov-
ernment reduced the risk of violence
by refusing to allow a single soldier
or policeman at the scene. The mani-
festants, many of whom were students,
were orderly the early part of the pro-
ceedings.

Foreign Office Locked.

Suddenly the cry to march on the
foreign office was raised and there
was a general stampede, many persons
barely escaping being crushed. The
crowds surged through the streets,
headed by gesticulating leaders and
reached the foreign office to find that
the high iron gates were locked.

Scores of the demonstrators pound-
ed on the gates and called for them to
be opened, but in vain. The under-
officers refused. A delegation was ap-
pointed, the members of which
climbed the gates, and then ensued a
long parley. Meanwhile the crowd
was cheerful, but determined.

It showered compliments on a beau-
tiful Geisha girl struggling by in a
rickshaw, but angrily stoned a photog-
rapher seeking to take snapshots of
the chief delegate, who, having re-
turned, mounted the portals to report
progress. Perched unsteadily on the
pickets, he made a fantastic picture,
and in a harsh harangue declared that
the committee demanded either the
dispatch of troops or the retirement of
the foreign minister.

"We told the officials," he shouted
"that the voice of the people speaks,
that the agitation will never end until
our demands are granted."

The extraordinary situation contin-
ued for five hours, the delegates
emerging periodically to pacify the
crowd. Finally, when the discussion
ended, they reported that Baron Ma-
kino had promised to receive them
Sept. 15. This was greeted with howls
of derision and a thousand marched to
the foreign minister's residence, three
miles distant. Police, however, pre-
vented their near approach.

UNDERGROUND TRAIL FOUND

Conspiracy to Spirit Away Chinese
Fugitives Discovered.

Chicago, Sept. 8.—Discovery of an
"underground railway" for the spirit-
ing away of Chinese criminals and
fugitives from justice and to aid in
the entrance of Orientals into this
country, was reported by detectives at
work on the murder of Charles Sing, a
Chinese merchant.

The alleged conspiracy extends from
British Columbia to Hongkong and
has branches in many cities of this
country and at least one in Mexico.
The discovery was regarded by the
police as sensational.

Oust Comptroller of East St. Louis

St. Louis, Sept. 8.—Mayor Chamber-
lin of East St. Louis ousted City
Comptroller Rodenberger and ap-
pointed as acting comptroller W. W.
Kimball, a clerk in the office. The
trouble is a sequel to the disappear-
ance from the vaults of Rodenberger's
office of five volumes of municipal re-
cords—a disappearance that occurred
on the eve of a grand jury inquiry into
East St. Louis affairs.

Jessie Wilson to Be Wedded Nov. 25

Cornish, N. H., Sept. 8.—The mar-
riage of Miss Jessie Wilson, second
daughter of President Wilson, to Fran-
cis B. Sayre of New York is to take
place at the White House in Wash-
ington, Tuesday, Nov. 25. The announce-
ment was made from the summer
White House by Mrs. Woodrow Wilson
through her secretary, Mrs. Isabella
L. Hagner.

Dredges Will Finish Work.

Panama, Sept. 8.—The dry excava-
tion of the canal has been completed
the steam shovels working in the
Culebra cut having removed the last
rock. The further excavation of the
canal will be completed by dredging.

Administrator's Sale

I will sell at the farm of the late R. G. Richey, 4 miles west and 1 1/2 miles south of Maryville on

Thursday, Sept. 11, 1913

The following described property:

Horses—1 team bay mares, 1 black mare 4 years old, 1 bay mare 4 years old, 1 bay horse 2 years old, 1 black horse 2 years old, 1 yearling gray colt.

Cattle and Hogs—3 milk cows, 1 red heifer, 2 heifer calves. 50 spring pigs, good ones, some fine gilts among these, 10 brood sows.

Grain and Implements—35 bushels rye, Black Hawk corn planter, mowing machine, cultivator, hay rake, harrow, good buggy, wagon, go-devil, lister and drill, stirring plow, hay fork and rope, set good buggy harness, set work harness. Some household goods and other articles too numerous to mention.

TERMS—All sums of \$10.00 and under, cash; over that amount 3, 6 or 9 months, purchaser to give bankable note bearing 8 per cent interest. No property removed until settled for. Sale to commence at 10:30 a. m. Lunch on ground.

J. D. Richey, Administrator

R. P. HOSMER, Auctioneer.

Uncle Sam's Last Big LAND OPENING

Home Seekers' Excursion Fares

via

Wabash Railroad

\$22.50 to Glasgow and return; \$35.00 to Great Falls and Havre and return.

We are informed there will be held a great GOVERNMENT LAND DRAWING at Glasgow, Mont., on September 23rd, 1913. Register at Glasgow, Havre or Great Falls, Mont., Sept. 1st to 23rd inclusive. The chance of a life-time to secure a home; possibly the last opportunity of this kind which will ever occur again.

The WABASH, always alert to give its patrons the best of all the good things going, have the above rates to offer you on

September 2 and 16, 1913

So you see it's very convenient to purchase these tickets on these dates and be on the ground for this occasion just at the right time.

Good connection made with connecting line trains for these points. Will make sleeping car reservation for you if you wish.

Please come and order your tickets in advance as we expect quite a rush to take advantage of these rates.

E. L. Ferritor, Wabash

BASEBALL LEADERS ARE CLOSE PRESSED

Giants and Athletics Each Show Slump in Form.

New York, Sept. 8.—There has been an unmistakable scare in the camps of the probable world's series contenders for several days and the beginning of the new playing week finds anything but a feeling of serene satisfaction prevalent around Shibe park and the Polo grounds.

Both John McGraw and Connie Mack doubtless believe their respective teams will top the lists when the major league season ends Oct. 5. But each can hardly help realizing that unless his men play better baseball than they have exhibited on most of their recent appearances, the plans for post-season activities of Giants and Athletics may have to undergo sudden and radical revision.

In each league the best the pace makers could pry out of the week's work was an even break. The Giants saw their lead drop from twelve games to eight. The Athletics' lead was reduced by one game to six and a half.

TAKE NOTE OF HEART BEATS

When That Organ Says "Luff-Duff" It Is Full Time to Take a Vacation.

Do you know what a doctor hears when he sounds your chest and listens to your heart beating?

Your heart, if it is quite sound, makes a noise very like "lub-dup, lub-dup, lub-dup" all the time. Pearson's Weekly says. The two syllables come very quickly together and between each "lub-dup" there comes a pause, the short period when the heart is resting, as it were.

The "lub" sound is due to the blood flowing out of the heart and the "dup" is the closing of the heart's valves. Just by the loudness of these two syllables the doctor knows if your heart is working as it should be.

Supposing the "dup" is very loud, for instance, that tells him that the valves are being "slammed to," just as a door is, and that the pressure is greater than it should be. The cause of this is generally what is known as an "aneurism."

If the valves are not closing properly the doctor hears a sound like "duff" instead of "dup." The heart is then said to have a "murmur," and the physician knows what steps to take to correct it.

When the first sound, "lub," is softened into "luff" it warns the doctor that his patient has something wrong with the mitral valve. The "lub" sound is always very much weaker when one is suffering from fever, and it is this weakness, due to the weakness of the heart muscles, which makes the doctor so anxious at those times.

When the heart says "luff-duff" he tells you to knock off work for a time and have a complete rest, for your heart is in a bad way.

LIKE SO MUCH "DEAD HORSE"

Man Who Paid Debt With Check Will Die in the Belief That He Has Settled Twice.

A man made a bet with his wife—which was indiscreet.

The wife won—which was foreordained.

The man wrote the wife a check for \$5 in payment of the bet—which was sad.

The wife cashed the check at the grocery, but forgot to endorse it—which was natural.

The grocer, despite the lack of endorsement, paid it to a packing house collector—which was careless.

The packing house collector turned it in—which was all in a day's work.

A packing house office man discovered the lack of endorsement—which was good work.

He handed it back to the driver and docked the driver's salary—which was system.

The driver placed the check in his white duck coat and sent it to the laundry—which was unwise.

The laundry mutilated the check beyond recognition—which was unwise.

Which is why the driver asked the cashier to ask the grocer to ask the man's wife to ask her husband to write a duplicate check. Which is why the man feels like he is paying that bet twice.

Animal Training.

Most people have heard of the celebrated calculating horses of Elberfeld, who can do anything up to calculating square roots, in addition to being proficient at spelling. It would now appear, according to the Paris Press, that although these feats are actually performed they are due to a very clever device. An animal trainer has informed the Matin that he has utilized a system of wireless telegraphy for training animals to do all sorts of tricks. The receiver is placed on the horse's bridle, while the trainer or an assistant manipulates the transmitter, and by a code of signals, which are not difficult to teach, the animals can be made to give any desired "answer." It is suggested that this system is used in the case of the celebrated Elberfeld horses. Prior to the utilization of wireless telegraphy, the trainer mentioned employed a method of signals by means of a toothpick.

British Union Jack.

The union jack, the national banner of the United Kingdom of Great Britain and Ireland, is formed out of the combination of the crosses of St. George, of St. Andrew and of St. Patrick, these three crosses being the national banner of England, Scotland and Ireland, respectively. The first union jack, which was introduced by royal proclamation in 1606, three years after the union with Scotland, bore only the crosses of two countries, England and Scotland. This combination was proclaimed in 1707 as the national flag of Great Britain. On the union with Ireland, the cross of St. Patrick, with its four limbs, edged with white on one side, was added.

Sleep Is First Necessity.

A very frequent cause of nervousness in many persons is loss of sleep. It gives rise to headaches and neuralgia, and is mainly responsible for other distressing ailments. The man or woman whose sleep is unduly disturbed as the result of heavy mental work, by night watching at the bedside of the sick or through irregular hours of employment, should endeavor to secure a little refreshing sleep whenever possible in order to make up for the loss sustained. For not only will headaches and other ailments develop from sleeplessness, but the nervous system will soon become considerably deranged as a consequence. So be careful upon this point.

To Detroit and Toledo.

John Sewell of the firm of Sewell & Carter left Sunday for Detroit, Mich., and Toledo, O., where he will visit automobile factories. At Detroit he will visit the Cadillac factory, and at Toledo the Overland factory.

Meeting as a Board.

The members of the county court, with County Surveyor Reese and Deputy Sheriff Dee Callahan are meeting today as a county board of equalization. They expect to be in session until Wednesday.

School Opened Today.

St. Patrick's school opened Monday with a good attendance. There were more present Monday than on the first day of school of last year.

Miss Ruth Cannon of Bowen, Ill., left for her home Monday morning, after a ten days' visit with her cousins, M. D. Kemp and family.

Miss Margaret McMillen returned to her home in Pickering today, after a week's visit in Red Oak, Ia., at the home of W. A. Hitchcock.

Miss Ora McMillen, who has been visiting her parents in Pickering, returned today to her work in Topeka, Kan.

Mrs. S. F. McCrary returned Saturday night from Chicago where she had been buying fall and winter millinery.

Mr. and Mrs. Howard McCommon returned Saturday night from a several weeks' stay in Kansas City.

Miss Mabel Rogers returned Sunday night from a visit with relatives in Abbott, Colo.

Miss Babe Howden of Skidmore is visiting in the city with Miss Nelle Conrad.

Lawrence Gowney and daughter of Conception were city visitors Monday.

George Robb Ellison spent the day Monday in Albany on business.

Mr. and Mrs. J. H. Hoy of Clearmont were city visitors Monday.

Clark Bancroft of Clearmont was in the city Monday.

AS THE GROUCH SEES GROCER

Most Useful Member of Community Unkindly Dealt With by Expert Fault Finder.

A grocer is a man who spends his time in exchanging adulterated foods for unadulterated money.

The best time to visit any grocer is after you have had a large, square meal; the worst time to visit him is in the afternoon about 5 o'clock, when you are half starved and everything in his place looks more or less real. But after you have given him an order under these famished conditions, do not go home to your wife. It is better to give her a few days in which to recover, and incidentally get even with you by ordering two new Paris hats and rhododendron kimono.

To be a successful grocer one must have sand, a rich Oriental vocabulary that can describe the same tea as if it were in each case really different and a complete knowledge of aniline dyes.

Also, every grocer should be married. He can then explain to his customer when he is trying to sell her some combination of wood pulp and asbestos for nourishment: "My wife has tried this for three weeks and still lives."—Life.

Estimating Your Supplies

In large institutions the time that certain supplies last has been tested down to a fine point. Only by knowing very carefully how long certain supplies will last can the army and other large institutions buy intelligently and thus take advantage of the reduced price given on large orders. While many women are "good managers," many more should more definitely test how long certain supplies last the family under average conditions. It is possible to estimate how long coffee, tea, staples, cereals, etc., will last, and make large quantity orders on which the housewife can obtain a generous discount. But unless this quantity buying is based on careful estimates it will not result in the saving of money and time it otherwise would.

Vegetables as Hair Ornaments.

Now that fruit has reached the hair, in the shape of little oranges for the bride's coiffure, will it come to vegetables again, as it did among the absurdities of Marie Antoinette's time? "Ask my niece, Mme. de Malignon," we read in the memoirs of the Marquise de Cregny, "if it is not true that in 1785 she had her head dressed a la jardiniere, with a red check duarter, into which M. Leonard (the queen's hair dresser) had artistically inserted a small artichoke, a broccoli, a fine carrot and some radishes. When Donon Picot (the Comtesse de Lameth-Picot, a rich creole) saw it she was so delighted that she exclaimed, 'I will never wear anything but vegetables. It is so simple, and more natural than flowers.'"

You can't do better than patronize our job office.
